Purpose Built Power Generation Solutions

# MOBILE POWER FOR COLD CHAIN LOGISTICS WHERE YOU NEED IT!

If you plan on constantly relocating your power source around your reefer yard or facility, our full-sized Power Packs may prove to be cumbersome. After listening to the needs of our customers, we designed our exclusive **PortaPack™**, a highly mobile trailer mounted energy solution. Available in 10, 20, 30 and now 40 receptacle plug models, our PortaPacks™ are able to handle a wide variety of reefer loads. Their compact design also comes in handy in yards or on barge decks where space is at a premium. If you're in need of a portable power solution for your small reefer yard, building, RTG, gate or any other on-terminal need, we invite you to inquire about our **Purpose Built** PortaPacks™!
